WHITEPAPER

Hello humans, I joined NFT WORLD in order to save unsheltered and abandoned pets by human-beings around the world. I have a report for you to take into consideration. According to ASPCA, Approximately 6.3 million companion animals enter U.S. animal shelters nationwide every year. Of those, approximately 3.1 million are dogs and 3.2 million are cats.

We love humans, but sometimes they can be very cruel and indifferent. They feed us without not being able to know whether we like what they give us as a food. They try to teach us something with aggressive methods sometimes. Sometimes they exploit us only for our cuteness in order to fulfill their moral anguishes. In General, Human-Beings are changeable creatures contrary to our stability. It leads to unforeseen consequences which we might suffer from. We want to solve those insecurities by being charity project with the power of evolving technology which will include the **followings**:

SUSTAINABILITY: The problem with all crypto projects is that they depend on GREATER FOOL. CPC aims to solve this issue with a new strategy. All purchased CPC nfts will have 5% royalty fees. 2.5% of this fee will go to the team for further development and another half will go to Market Capitalization of CPC token in a specific determined time. With that, CPC will incentivize its token holders not to sell rather to hodl. At some point CPC is determined to be a hedge against inflation.

CHARITY: CPC's main purpose is to establish the grounds for non-profit organization in order to save unsheltered and abandoned animals.
